XIAOMEIYAO ZHUNI

YIXING ZISHA CLAY

Xiaomeiyao Zhuni is sourced from the deep mineral strata of Zhaozhuang in Yixing. Nestled alongside ancient natural coal seams, this clay was formed under geothermal pressure, boasting exceptionally rich iron oxide and a silky colloidal density. Once fired, it radiates a luminous, cinnabar-crimson glow with subtle golden-amber undertones, silky to the touch with a bell-like metallic chime.

YIXING · CHINA

XIAOMEIYAO ZHUNI · COLOUR & TEXTURE

Golden Zhuni

1120°C 1130°C 1150°C

Golden Ore · Warm Vermilion
Pale golden raw ore becomes a luminous orange-red. Fine grain and warm colour reveal the character of Xiaomeiyao golden Zhuni.

Xiaomeiyao Zhuni

1130°C 1140°C

Cinnabar Colour · Silken Grain
The classic Xiaomeiyao material. Fired red tones and a finely grained surface offer a rich, quietly luminous finish.

Purple-Toned Zhuni

1130°C 1140°C

Deep Red · Purple Undertones
A purple-toned variety of Xiaomeiyao Zhuni. Its deeper red colour brings a distinctive, composed presence to the finished vessel.

Published firing samples: golden & classic, 40 mesh; purple-toned, 60 mesh.

Ideal Teas: Phoenix Dancong, Wuyi Rock Tea (Yancha), High-Mountain Oolong, Tie Guan Yin, and Delicate Black Teas.
Collector's Winter Care Tip: Due to its high crystalline density, in cold climates, always warm the exterior with warm water before pouring boiling water inside to prevent thermal shock.
